120145	ml 750	Lemon
120148	kg 5	Lemon
120146	ml 750	Diamond
120151	kg 5	Diamond

## USE

Shake thoroughly before use.

As a deodoriser/air freshener: use the product as it is. Spray onto the surface (waste basket, carpet, sink, toilet, etc.) and leave to act and dry naturally (if sprayed onto fabric, test the product first on a small concealed area).

As a detergent/sanitiser: dilute 1 ml of product in 1 litre of water, then wipe over the surfaces with a cloth moistened with the solution and leave to dry.

**CAUTION:** Given the different types of surfaces and fabrics, it is advisable to test the compatibility of the product in a small, less visible area before use.

## PHYSICAL-CHEMICAL CHARACTERISTICS

Chemical classification	Non-ionic solution
Physical state	Liquid
Solubility in water	In every ratio
Color	Milky
pH	7 ± 1
Density	1,000 ± 0,020 g/ml

Refer to the safety data sheet for hazard information and precautions. Page 1 of 1

## USAGE

Super-concentrated sanitising freshener which neutralises unpleasant smells, and leaves a pleasant, long-lasting fragrance when sprayed in a room. It easily eliminates unpleasant smells from cigarette smoke and fried food, and is particularly suitable for bathrooms as a freshener for toilets and drains. As well as working as a freshener, it can also be diluted appropriately and be used as a sanitising detergent in various sectors such as hotels, communities, schools, homes, cars, and so on. Available in six different fragrances.

The above information is based on experience, tests and current documentation. In the event of improper use of the product and non-compliance with the necessary precautions, the information provided does not constitute a guarantee and does not entail any legal liability.
