### USE

The product is designed for use in automatic systems.

Recommended dosages: the recommended dosages given below are meant purely as a rough guide, as the amount used depends on the type of fabric and the nature of the dirt. For more precise information on dosages, contact our technical service, who will provide the best washing settings to meet your needs.

PRE-WASH - ; WASH - ; SINGLE RINSE 6-12

All figures are expressed in grams of product per kilo of dry fabric to be treated.

The washing instructions and results refer to the use of the RHÜTTEN Automatic System.

Solubility in water	In every ratio
Color	-
pH	$3 \pm 1$
Density	$1,00 \pm 0,020$ g/ml

Refer to the safety data sheet for hazard information and precautions.

## USAGE

A liquid fabric softener specifically formulated for industrial laundries, where it is used during the final rinse for cottons, polyesters, coloured fabrics and laundry in general, wool, delicates and silk items. The product helps to neutralise any detergent residues and makes the fibres soft and supple, making them easier to iron. SOFT 30 CLUB also enhances the brilliance of colours and releases a pleasant scent.
