

PLAST GP 50

Concentrated degreaser for interiors

REV. 0/30-05-2017

AVAILABLE FORMAT

Item	Format
180525	kg 5
180526	kg 10
180527	kh 26

USE

The product can be used undiluted or diluted with 2-3 parts of water, depending on the degree of dirt to be removed. Then, using a manual sprayer, spray on the surface and wait a few moments before wiping with a dry cloth or paper. The application can also be done using a sponge cloth moistened with the product and applying it directly over the surface to be cleaned.

PHYSICAL-CHEMICAL CHARACTERISTICS

Chemical classification	Non-ionic solution
Physical state	Liquid
Solubility in water	In every ratio
Color	Orange
pH	13 ± 1
Density	1,080 ± 0,020 g/ml

Refer to the safety data sheet for hazard information and precautions.

USAGE

A concentrated degreaser specially designed to thoroughly clean surfaces made of: plastic, rubber, imitation leather, painted parts, glass, etc. Thanks to its strong wetting and saponifying action, it easily removes even the most stubborn dirt, leaving the passenger compartment with a fresh, clean scent. PLAST GP 50 also restores plastic materials to their original shiny effect. Ideal for degreasing the interiors of public transport vehicles: buses, trams, trains, trolleybuses, etc.
