CRISTAL FULL

Super-concentrated dishwasher detergent ideal for hard water (specially for glassware)

REV. 6/12-06-2017

AVAILABLE FORMAT	
Item	Format
180851	kg 6
180852	kg 12
180853	kg 25

USE

Recommended dosages using automatic dosage: 1-2 grams per litre. Recommended dosages using manual dosage: 1-1.5 grams per litre in each washing cycle. Each time the water in the tank is replaced, pour 4-5 grams of CRISTAL FULL for each litre of fresh water. Increase the concentration depending on the hardness of the water and the condition of the tableware to be washed.

PHYSICAL-CHEMICAL CHARACTERISTICS

Chemical classification	Alkaline solution
Physical state	Liquid
Solubility in water	In every ratio
Color	Pale yellow
pH	13 ± 1
Density	1,270 ± 0,020 g/ml

Refer to the safety data sheet for hazard information and precautions.

USAGE

The product is suitable for use in dishwashers for washing small tableware items and glasses, while preventing the formation of limescale deposits. CRISTAL FULL ensures exceptional performance with both soft or particularly hard water. It is suitable for all dishwashers used in coffee bars, restaurants, canteens and kitchens in general. With the special substances it contains, the product is exceptional for dispersing and emulsifying dirt and restores brilliance to glasses and glassware. It also protects the dishwasher's mechanical parts against corrosion.

The above information is based on experience, tests and current documentation. In the event of improper use of the product and non-compliance with the necessary precautions, the information provided does not constitute a guarantee and does not entail any legal liability.
