

NEUTRAL 100

Stain remover additive

REV. 6/15-10-2019

AVAILABLE FORMAT

Item	Format
220509	L 10
182971	L 25
180072	L 221

USE

Use as a stain remover: spray directly onto the stain to be removed, then wash in the washing machine.

It is advisable to test the compatibility of the product in a corner and to wet the fabric with water where the stain is before spraying on the product.

Use in automatic systems: the recommended dosages given below are meant purely as a rough guide, as the amount used depends on the type of fabric and the nature of the dirt. For more precise information on dosages, contact our technical service, who will provide the best washing settings to meet your needs.

PRE-WASH: - ; WASH 10-15; SINGLE CYCLE 15-20

All figures are expressed in grams of product per kilo of dry fabric to be treated.

The washing instructions and results refer to the use of the Automatic System.

PHYSICAL-CHEMICAL CHARACTERISTICS

Chemical classification	Non-ionic and terpene solution
Physical state	Liquid
Color	Colourless
pH	7 ± 1
Density	0,940 ± 0,020 g/ml

Refer to the safety data sheet for hazard information and precautions.

USAGE

A solvent-based product for use as an additive to enhance the stain-removing action of other detergents, in industrial laundering of cottons, polyesters, coloured fabrics and laundry in general, as well as restaurant and hotel linen, etc. Its content of non-ionic surfactants and natural terpene solvents helps to remove the most stubborn dirt (grease, organic raw oils and mineral greases) that other products do not remove.
