

## NEUTRAL SOL 200

Degreasing solvent additive

REV. 0/03-07-2023

### AVAILABLE FORMAT

Item	Format
181230	L 10
181231	L 25
181236	L 1001

### USE

The product is designed for use in automatic systems.

Recommended dosages: the recommended dosages given below are meant purely as a rough guide, as the amount used depends on the type of fabric and the nature of the dirt. For more precise information on dosages, contact our technical service, who will provide the best washing settings to meet your needs.

PRE-WASH: - ; WASH 3-4; SINGLE CYCLE 3-4

All figures are expressed in grams of product per kilo of dry fabric to be treated.

The washing instructions and results refer to the use of the RHÜTTEN Automatic System.

### PHYSICAL-CHEMICAL CHARACTERISTICS

Chemical classification	Non-ionic solution
Physical state	Liquid
Solubility in water	In every ratio
Color	Colourless
pH	5,5 ± 1
Density	0,975 ± 0,020 g/ml

Refer to the safety data sheet for hazard information and precautions.

### USAGE

A concentrated additive suitable for enhancing the degreasing action of other detergents in industrial laundering of cottons, polyesters, coloured fabrics and laundry in general, as well as restaurant and hotel linen, etc. Its low alkaline formulation, with a high special solvent content, removes the most stubborn greasy dirt (grease, organic raw oils and mineral greases) from white and coloured fabrics without damaging the fibres.
