

L'INOX PLUS

Ready-to-use,
high-performance
cleaner-polish for stainless
steel

REV. 0/21-07-2020

USE

Apply the product as it is to the surface, wiping it evenly over the areas to be treated with a cloth or paper towel. For more stubborn dirt, repeat the operation and leave to act for a few seconds. Warning: do not apply on surfaces that come into contact with food.

PHYSICAL-CHEMICAL CHARACTERISTICS

Chemical classification	Alcoholic solution
Physical state	Liquid
Solubility in water	Insoluble
Color	Straw yellow
pH	n.a.
Density	0,836 ± 0,020 g/ml

Refer to the safety data sheet for hazard information and precautions.

USAGE

INOX PLUS is the right product for cleaning and polishing all stainless steel surfaces in general. It cleans treated parts by eliminating dust, fingerprints, small limescale and organic residues, restoring their original shine. It is suitable for use in restaurants, canteens and at home where stainless steel surfaces are found, such as the linings of refrigerators, dishwashers, hobs and extractor hoods.
