

PARAFFINIC PLUS

Dewaxer for paraffin waxes

REV. 2/13-06-2016

AVAILABLE FORMAT

Item	Format
200967	L 10
200724	L 26

USE

Spray the product as it is over the bodywork at low pressure. Leave to act for the required time, then rinse with a high pressure lance. In some cases, if necessary, you can help by using a sponge or large brush.

CAUTION: Avoid using the product on overheated surfaces and in the sun. It is advisable to test the product beforehand on plastic surfaces.

PHYSICAL-CHEMICAL CHARACTERISTICS

Chemical classification	Petroleum mixture
Physical state	Liquid
Solubility in water	Insoluble
Color	Colourless
pH	n.a.
Density	0,800 ± 0,020 g/ml

Refer to the safety data sheet for hazard information and precautions.

USAGE

Fast-acting, solvent-based product specially designed for dewaxing new cars protected with paraffin waxes. Thanks to the mix of special additives, it penetrates and quickly dissolves the waxy layer on cars without damaging the parts it comes in contact with.
