REV. 5/29-05-2018

USE

Shake thoroughly before use. Use DHENSO MS 85 as it is. Distribute the product on the parts to be treated using a sprayer or with the aid of a cloth or sponge moistened with the product only. Then wipe with a clean, dry cloth or paper, applying light pressure.

PHYSICAL-CHEMICAL CHARACTERISTICS

Chemical classification	Silicone solution
Physical state	Liquid
Solubility in water	In every ratio
Color	Milky
pH	7,5 ± 1
Density	1,000 ± 0,020 g/ml

Refer to the safety data sheet for hazard information and precautions.

USAGE

It is a concentrated product specially designed for polishing car dashboards, imitation leather, plastic and similar materials. It nourishes, sanitises and protects the treated parts from cracking and discolouration caused by UV rays and weathering. Thanks to its special additives it adheres to the surface giving an exceptional "silky effect". When being used it also releases a pleasant fragrance.
