

PRELAV STR 202

REV. 5/04-12-2018

AVAILABLE FORMAT

Item	Format
200790	kg 25

USE

Using a pressurised tank:

It is recommended to dilute the product 1:100 to 1:50 in water according to the condition of the vehicle and the outside temperature. Increase the concentration in the event of particularly stubborn dirt.

Apply the product horizontally from the bottom upwards.

CAUTION: Do not allow the product to dry on the treated parts before rinsing it off.

Avoid using the product on hot surfaces. In winter, increase the concentration.

Given the different types of rims, and the different alloys used, it is advisable to test the compatibility of the product on a small, less visible area. Do not use for washing any kind of motorcycle.

PHYSICAL-CHEMICAL CHARACTERISTICS

Chemical classification	Non-ionic solution
Physical state	Two-component liquid
Solubility in water	In every ratio
Color	Light green/dark green
pH	13 ± 1
Density	1,170 + 0,02 g/ml

Refer to the safety data sheet for hazard information and precautions.

USAGE

PRELAV S.T.R. 202 is a concentrated liquid detergent specially formulated for pre-washing vehicles, heavy vehicles, tarpaulin-covered lorries, road tankers, mechanical diggers and other surfaces, such as engines and engine compartments. Its particular effectiveness in removing stubborn dirt without altering the surfaces with which it comes into contact – when diluted as indicated – makes PRELAV S.T.R. 202 a totally unique product. Its broad spectrum of action enables the rapid removal of all types of soiling, whether of greasy or mineral origin. PRELAV S.T.R. 202 when being sprayed, releases a pleasant balsamic fragrance.
