NEUTRAL EXTRA 26

Surfactant-containing solvent additive

REV. 0/13-12-2026

AVAILABLE FORMAT	
Item	Format
220341	L 10
220343	L 25

USE

Use in automated laundry systems: the recommended dosage provided below is for guidance only and may vary depending on the fabric and the nature of the soiling. For an ad hoc dosing, please contact our Technical Service Department, who will suggest the most aprropriate wash formula for your specific application.
All dosage values are expressed as grams of product per kilogram of dry laundry.
The recommended wash programmes and their performance apply when the product is used with an automatic dosing system.
Stain pre-treatment use: spray directly on the stain before washing in the washing machine.

PREWASH	WASH	TEMPERATURE(°C)
3-6	3-6	40-60

PHYSICAL-CHEMICAL CHARACTERISTICS

Chemical classification	Blend of surfactants
Physical state	Liquid
Solubility in water	Partially soluble
Color	Colourless
pH	7 ± 1
Density	0,960 ± 0,02 g/ml

Refer to the safety data sheet for hazard information and precautions.

USAGE

NEUTRAL EXTRA 26 is a high-performance surfactant-containing solvent detergent, specifically developed as a degreasing booster for the industrial washing of all types of fabrics, from cotton to polyester. Its advanced formula, enriched with specific surfactants, rapidly removes the most stubborn soil, including oil, grease and, in particular, difficult sunscreen stains. Powerful on soil yet exceptionally gentle on fibres, it helps preserve fabric integrity and colour brightness.

The above information is based on experience, tests and current documentation. In the event of improper use of the product and non-compliance with the necessary precautions, the information provided does not constitute a guarantee and does not entail any legal liability.
