USE

Using a spray pump applicator, spray the product as it is, at a distance of approximately 20 cm, onto the parts to be treated, then remove the dirt with a dry cloth or paper towel. Use on floors: dilute the product at a ratio of 1:10 to 1:12.5 and wipe with a microfibre cloth. SPECIAL VETRI does not require rinsing.

PHYSICAL-CHEMICAL CHARACTERISTICS

Physical state	Liquid
Solubility in water	In every ratio
Color	Light blue
pH	7 ± 1
Density	$0,980 \pm 0,020$ g/ml

Refer to the safety data sheet for hazard information and precautions.

USAGE

Azeotropic product specially designed for cleaning mirrors and glass in general, TV sets, tiles, ceramics, shiny floors and Formica furniture, without leaving any smears. Its softening action removes various types of dirt such as grease, oil and dust etc. from surfaces. SPECIAL VETRI releases an antistatic effect against dust.
