USE

The product is designed for use in automatic systems. Recommended dosages: the recommended dosages given below are meant purely as a rough guide, as the amount used depends on the type of fabric and the nature of the dirt. For more precise information on dosages, contact our technical service, who will provide the best washing settings to meet your needs.

PRE-WASH: 6-12; WASH 8-10; SINGLE CYCLE 10-14

All figures are expressed in grams of product per kilo of dry fabric to be treated.

The washing instructions and results refer to use of the RHÜTTEN Automatic System.

PHYSICAL-CHEMICAL CHARACTERISTICS

Chemical classification	Alkaline solution
Physical state	Liquid
Solubility in water	In every ratio
Color	Colourless
pH	13 ± 1
Density	1,176 ± 0,020 g/ml

Refer to the safety data sheet for hazard information and precautions.

USAGE

Alkaline additive to be added to the wash solution in industrial washing machines. Suitable for any type of cotton fabric, polyester blends, linen in general, restaurant and hotel table linens, etc.; it cannot be used with silk items and delicates. Its active ingredients help to thoroughly remove mineral oils, cooked fats, grease and general heavy soiling found in fabrics and performs an effective cleansing action even in hard water.
