

DETER PAV 28

Super-concentrated, low-foam detergent for floor cleaning machines

REV. 7/01-06-2018

USE

Mechanical washing: for heavy dirt, dilute DETER PAV 28 in water from 0.5% to 5%; for light dirt, dilute the product from 0.3% to 0.5%.

Manual washing: for layered greases and mineral oils, spray DETER PAV 28 at concentrations of 10% to 30% and leave it to act for a few minutes. Then scrub with a brush and finally, if necessary, rinse. For light dirt, dilute the product from 0.3% to 0.5%. Then scrub with a brush and finally, if necessary, rinse.

PHYSICAL-CHEMICAL CHARACTERISTICS

Chemical classification	Non-ionic solution
Physical state	Liquid
Solubility in water	In every ratio
Color	Straw yellow
pH	12 \pm 1
Density	1,080 \pm 0,020 g/ml

Refer to the safety data sheet for hazard information and precautions.

USAGE

Highly concentrated, low-foam liquid detergent for use with floor cleaning machines. The product's vigorous wetting and emulsifying action rapidly removes dirt. The product can also be used by hand. DETER PAV 28 is ideal for cleaning floors in workshops, industrial plants in general and any kind of washable surface (linoleum, rubber, tiles, walls, doors and window fittings, etc.).
