

PLAY FOAM

**Super-concentrated
snow-effect scented foaming
product**

AVAILABLE FORMAT

Item	Format
200944	kg 10
220619	kg 26

REV. 5/13-06-2016

USE

In systems with foaming devices and dosing pumps: set the system intake to approximately 25-55 grams of undiluted product for each washing cycle. The most suitable dosage may depend on the different system types. In self-service systems: dilute PLAY FOAM 1:10 with water, then programme the system to use a quantity of solution equal to 35-45 grams for each washing cycle.

CAUTION: Do not allow the product to dry on the parts before rinsing it off. Do not use on parts that are particularly hot. Do not store the product at temperatures below 4°C.

PHYSICAL-CHEMICAL CHARACTERISTICS

Chemical classification	Anionic solution
Physical state	Liquid
Solubility in water	In every ratio
Color	Colourless
pH	7 ± 1
Density	$1,030 \pm 0,020 \text{ g/ml}$

Refer to the safety data sheet for hazard information and precautions.

USAGE

It generates an active, scented foam with high softening properties, perfect for removing dirt from any kind of bodywork. The snow effect foam dissolves with ease during rinsing. The product can be used in automatic tunnel and in-bay car washes and in self-service systems with manually used brushes.
