

## DETER DECERANTE

Dewaxer

REV. 5/06-06-2018

### USE

Dilute the product 1:10 to 3:10 in water, depending on the layer of wax to be removed and the temperature of use; apply the solution on the surface to be treated, then rinse.

NB: Given the different types of surfaces, it is advisable to do preliminary tests on small and less visible parts.

### PHYSICAL-CHEMICAL CHARACTERISTICS

Chemical classification	Non-ionic solution
Physical state	Liquid
Solubility in water	In every ratio
Color	Blue
pH	13 $\pm$ 1
Density	1,035 $\pm$ 0,020 g/ml

Refer to the safety data sheet for hazard information and precautions.

### USAGE

Product specially formulated for removing old, accumulated wax residues from floors previously treated with wax polishes containing metallic or non-metallic resins. Its strong de-waxing power easily and thoroughly removes old wax polish layers, without damaging the floor surface. DETER DECERANTE is specially formulated for linoleum, marble or stoneware floors and can be used either hot or cold.
