

DETER PAV 28 IGIENIZZANTE

**Super-concentrated, sanitising
detergent for floor cleaning
machines**

REV. 10/01-07-2024

USE

For use with floor cleaning machines: dilute the product from 1% to 3%.

For use by hand: dilute from 2% to 5% in water, apply the solution to the surface (rub or brush if necessary), then rinse. For particularly dirty surfaces, increase the concentration.

CAUTION: Do not let treated areas dry before rinsing.

PHYSICAL-CHEMICAL CHARACTERISTICS

Chemical classification	Cationic/non-ionic solution
Physical state	Liquid
Solubility in water	In every ratio
Color	Light yellow
pH	13 ± 1
Density	$1,093 \pm 0,020$ g/ml

Refer to the safety data sheet for hazard information and precautions.

USAGE

Highly concentrated, low-foam sanitising detergent; ideal for use with floor cleaning machines and manually, it cleans and sanitises floors in workshops, food industries, restaurants, hotels, hospitals, butcher's shops, refrigerated lorries, etc., and all hard surfaces in general: tiles, linoleum, glass surfaces, the interiors of large refrigerators, etc.
